Benjamin Salah

New York, New York

Software Engineer at Microsoft

Experience

Software Engineer at Microsoft
September 2019 - Present (1 month)

Software Engineer at PromoteIQ
March 2018 - Present (1 year 7 months)

Software Engineer at indify
January 2017 - March 2018 (1 year 3 months)

  indify is a data platform that uses a proprietary algorithm to predict future music stars. Using listener data, social metrics and online trends, indify ranks and analyzes up-and-coming artists in order to identify music icons far before they reach stardom.

Software Developer at Karhoo
December 2015 - January 2017 (1 year 2 months)

  Karhoo, the ride comparison app, gives you the flexibility to choose and book your ride based on the features that matter most to you. Choose your ride based on price, pickup time, vehicle type, or company. So whether you're looking for a taxi, executive car or SUV, Karhoo has you covered.

  Karhoo offers immediate pickup as well as pre-booking up to a year in advance. Transparent pricing and no surge means you see your estimated fare before you book your ride.

Education

Rutgers, The State University of New Jersey-New Brunswick
Bachelor's Degree, Computer Science, 2015
Activities and Societies: Undergraduate Student Alliance of Computer Scientists
